In pursuance of Byelaws of NSE Clearing pertaining to Clearing and Settlement of deals, SEBI circular reference SMDRP/DC/CIR-8/01 dated June 21, 2001, Circular no. 001 (Download no. NCL/CMPT/46881) dated January 01, 2021 and Circular no. 35/2021 (Download no. 48408) dated May 26, 2021 members are hereby informed the procedure for adjustment of Futures and Options contracts in the underlying security AARTI INDUSTRIES LIMITED, on account of Bonus Issue in the ratio of 1:1.

The 'adjustment factor' for the corporate action shall be 2 and the ex-date for the corporate action shall be June 22, 2021. The following action would be taken by NSE Clearing in this regard.

1. Action by the NSE Clearing in respect of Futures Contracts:

All open positions in futures contracts with the underlying security as AARTIIND existing after End of day on June 21, 2021 will be adjusted as under:

Positions: The adjusted positions shall be arrived at by multiplying number of contracts in the pre adjusted position by the adjusted market lot. The adjusted market lot shall be as per the Circular no. 35/2021 (Download no. 48408) dated May 26, 2021.

Futures Price: The adjusted futures price would be based on the Settlement price of the relevant futures contracts on June 21, 2021. Adjusted futures price shall be settlement price of relevant futures contracts on June 21, 2021 divided by 'adjustment factor'.

Adjusted value: In order to avoid difference arising due to rounding off of adjusted settlement price, the carry forward/adjusted value shall be computed by multiplying pre adjusted futures long/short quantity with pre adjusted settlement price. Accordingly, all positions in futures contracts with the underlying security as AARTIIND would be marked-to-market on June 21, 2021 based on the daily settlement price of the respective futures contract. Further, the adjusted positions would be carried forward at the adjusted value.

From June 22, 2021, daily mark to market settlement of futures contracts with the underlying security as AARTIIND would continue as per normal procedures.

Begin of day margins on June 22, 2021 would be computed for the futures contract with underlying as AARTIIND based on the adjusted carry forward value.

Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.
