**Sub: Adjustment of Futures and Options contracts in the security TATASTEEL LIMITED**

In pursuance of Byelaws of NSCCL pertaining to Clearing and Settlement of deals, SEBI circular reference SMDRP/DC/CIR-8/01 dated June 21, 2001, Circular no. 001 (Download no. NSCCL/CMPT/50877) dated January 03, 2022 and Circular no. 073/2022 (Download no. NSE/FAOP/52953) dated July 12, 2022 are hereby informed the procedure for adjustment of Futures and Options contracts in the underlying security TATASTEEL , on account of Face Value Split of shares from Rs.10 per share to Rs.1 per share.

The 'adjustment factor' for the corporate action shall be 10 and the ex-date for the corporate action shall be July 28, 2022. The following action would be taken by NSE Clearing Ltd. in this regard.

**1 Action by the Clearing Corporation in respect of Futures Contracts:**

All open positions in Futures contracts with the underlying security as TATASTEEL existing after End of day on July 27, 2022 will be adjusted as under:

**Positions:** The adjusted positions shall be arrived at by multiplying number of contracts in the pre adjusted position by the adjusted market lot. The adjusted market lot shall be as per the Circular no. 073/2022 (Download no. NSE/FAOP/ 52953) dated July 12, 2022.

**Futures Price:** The adjusted futures price would be based on the Settlement price of the relevant futures contracts on July 27, 2022. Adjusted futures price shall be settlement price of relevant futures contracts on July 27, 2022 divided by 'adjustment factor'.

**Adjusted value:** In order to avoid difference arising due to rounding off of adjusted settlement price, the carry forward/adjusted value shall be computed by multiplying pre adjusted futures long/short quantity with pre adjusted settlement price. Accordingly, all positions in futures contracts with the underlying security as TATASTEEL would be marked-to-market on July 27, 2022 based on the daily settlement price of the respective futures contract. Further, the adjusted positions would be carried forward at the adjusted value.

From July 28, 2022, daily mark to market settlement of futures contracts with the underlying security as TATASTEEL would continue as per normal procedures.

Begin of day margins on July 28, 2022 would be computed for the futures contract with underlying as TATASTEEL based on the adjusted carry forward value. Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.
