Sub: Adjustment of Futures and Options contracts in the security POWER FINANCE CORPORATION LIMITED (PFC)

This is pursuant to NSE Circular no. 147/2022 (Download no. 54502) dated November 18, 2022 regarding Adjustment of Futures and Options contracts in the security PFC. The following action with regards to clearing and settlement would be taken by NSE Clearing in this regard.

1. Action by the Clearing Corporation in respect of Futures Contracts:

Adjustment of futures contracts available in PFC shall be carried out based on the reference rate of the relevant futures contracts on November 23, 2022 (last cum-dividend date). The reference rate to be reckoned for the purpose of adjustment shall be the daily mark to market settlement price of the relevant futures contract, which shall be reduced by the dividend amount.

Accordingly, all positions in futures contracts with the underlying security as PFC would be marked-to-market on the last cum-dividend date i.e. November 23, 2022, based on the daily settlement price of the respective futures contract. Subsequent to such processing, open positions shall be carried forward at the daily settlement price less Rs.3.00 (dividend amount) for the respective futures contract.

From November 24, 2022 (ex-dividend date), daily mark to market settlement of futures contracts with the underlying security as PFC would continue as per normal procedures

Begin of day margins on November 24, 2022 would be computed for the futures contract with underlying as PFC based on the adjusted carry forward value. Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.

An example of adjustment of futures contract is detailed hereunder:
