The 'adjustment factor' for the corporate action shall be 2 and the ex-date for the corporate action shall be July 08, 2022. The following action would be taken by NSE Clearing in this regard.

1. Action by the NSE Clearing in respect of Futures Contracts:

All open positions in futures contracts with the underlying security as TORNTPHARM existing after End of day on July 07, 2022 will be adjusted as under:

Positions: The adjusted positions shall be arrived at by multiplying number of contracts in the pre adjusted position by the adjusted market lot. The adjusted market lot shall be as per the Circular no. 67/2022 (Download no. 52865) dated July 04, 2022.

NSE Clearing Limited

(Formerly known as National Securities Clearing Corporation Ltd.)

Futures Price: The adjusted futures price would be based on the Settlement price of the relevant futures contracts on July 07, 2022. Adjusted futures price shall be settlement price of relevant futures contracts on July 07, 2022 divided by 'adjustment factor'.

Adjusted value: In order to avoid difference arising due to rounding off of adjusted settlement price, the carry forward/adjusted value shall be computed by multiplying pre adjusted futures long/short quantity with pre adjusted settlement price. Accordingly, all positions in futures contracts with the underlying security as TORNTPHARM would be marked-to-market on July 07, 2022 based on the daily settlement price of the respective futures contract. Further, the adjusted positions would be carried forward at the adjusted value.

From July 08, 2022, daily mark to market settlement of futures contracts with the underlying security as TORNTPHARM would continue as per normal procedures.

Begin of day margins on July 08, 2022 would be computed for the futures contract with underlying as TORNTPHARM based on the adjusted carry forward value. Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.
